English Translation by Nandyka Yogamaya

**Allah is the Creator of
everything. Allah made us
and the whole universe.**

Allah is One and Only.
Allah has no children and was not born from anyone.
Only Allah can control the whole universe.

**When we get to know Allah,
we will love Him even more.
Allah has given us so many
good things.**

**Allah helps anyone He wants to help.
Allah always hears us when we pray to Him.
Allah is happy when we ask Him to forgive us,
and He always forgives those who sincerely ask
for forgiveness.**

**Allah sees everything that happens.
Allah knows everything that is going on. Nobody can
hide anything from Allah.**

وَخَلَقَ كُلَّ شَيْءٍ وَهُوَ بِكُلِّ شَيْءٍ عَلِيمٌ

(He created all things and has perfect
knowledge of everything.)

(Quran, Chapter Al-An'am: verse 101)

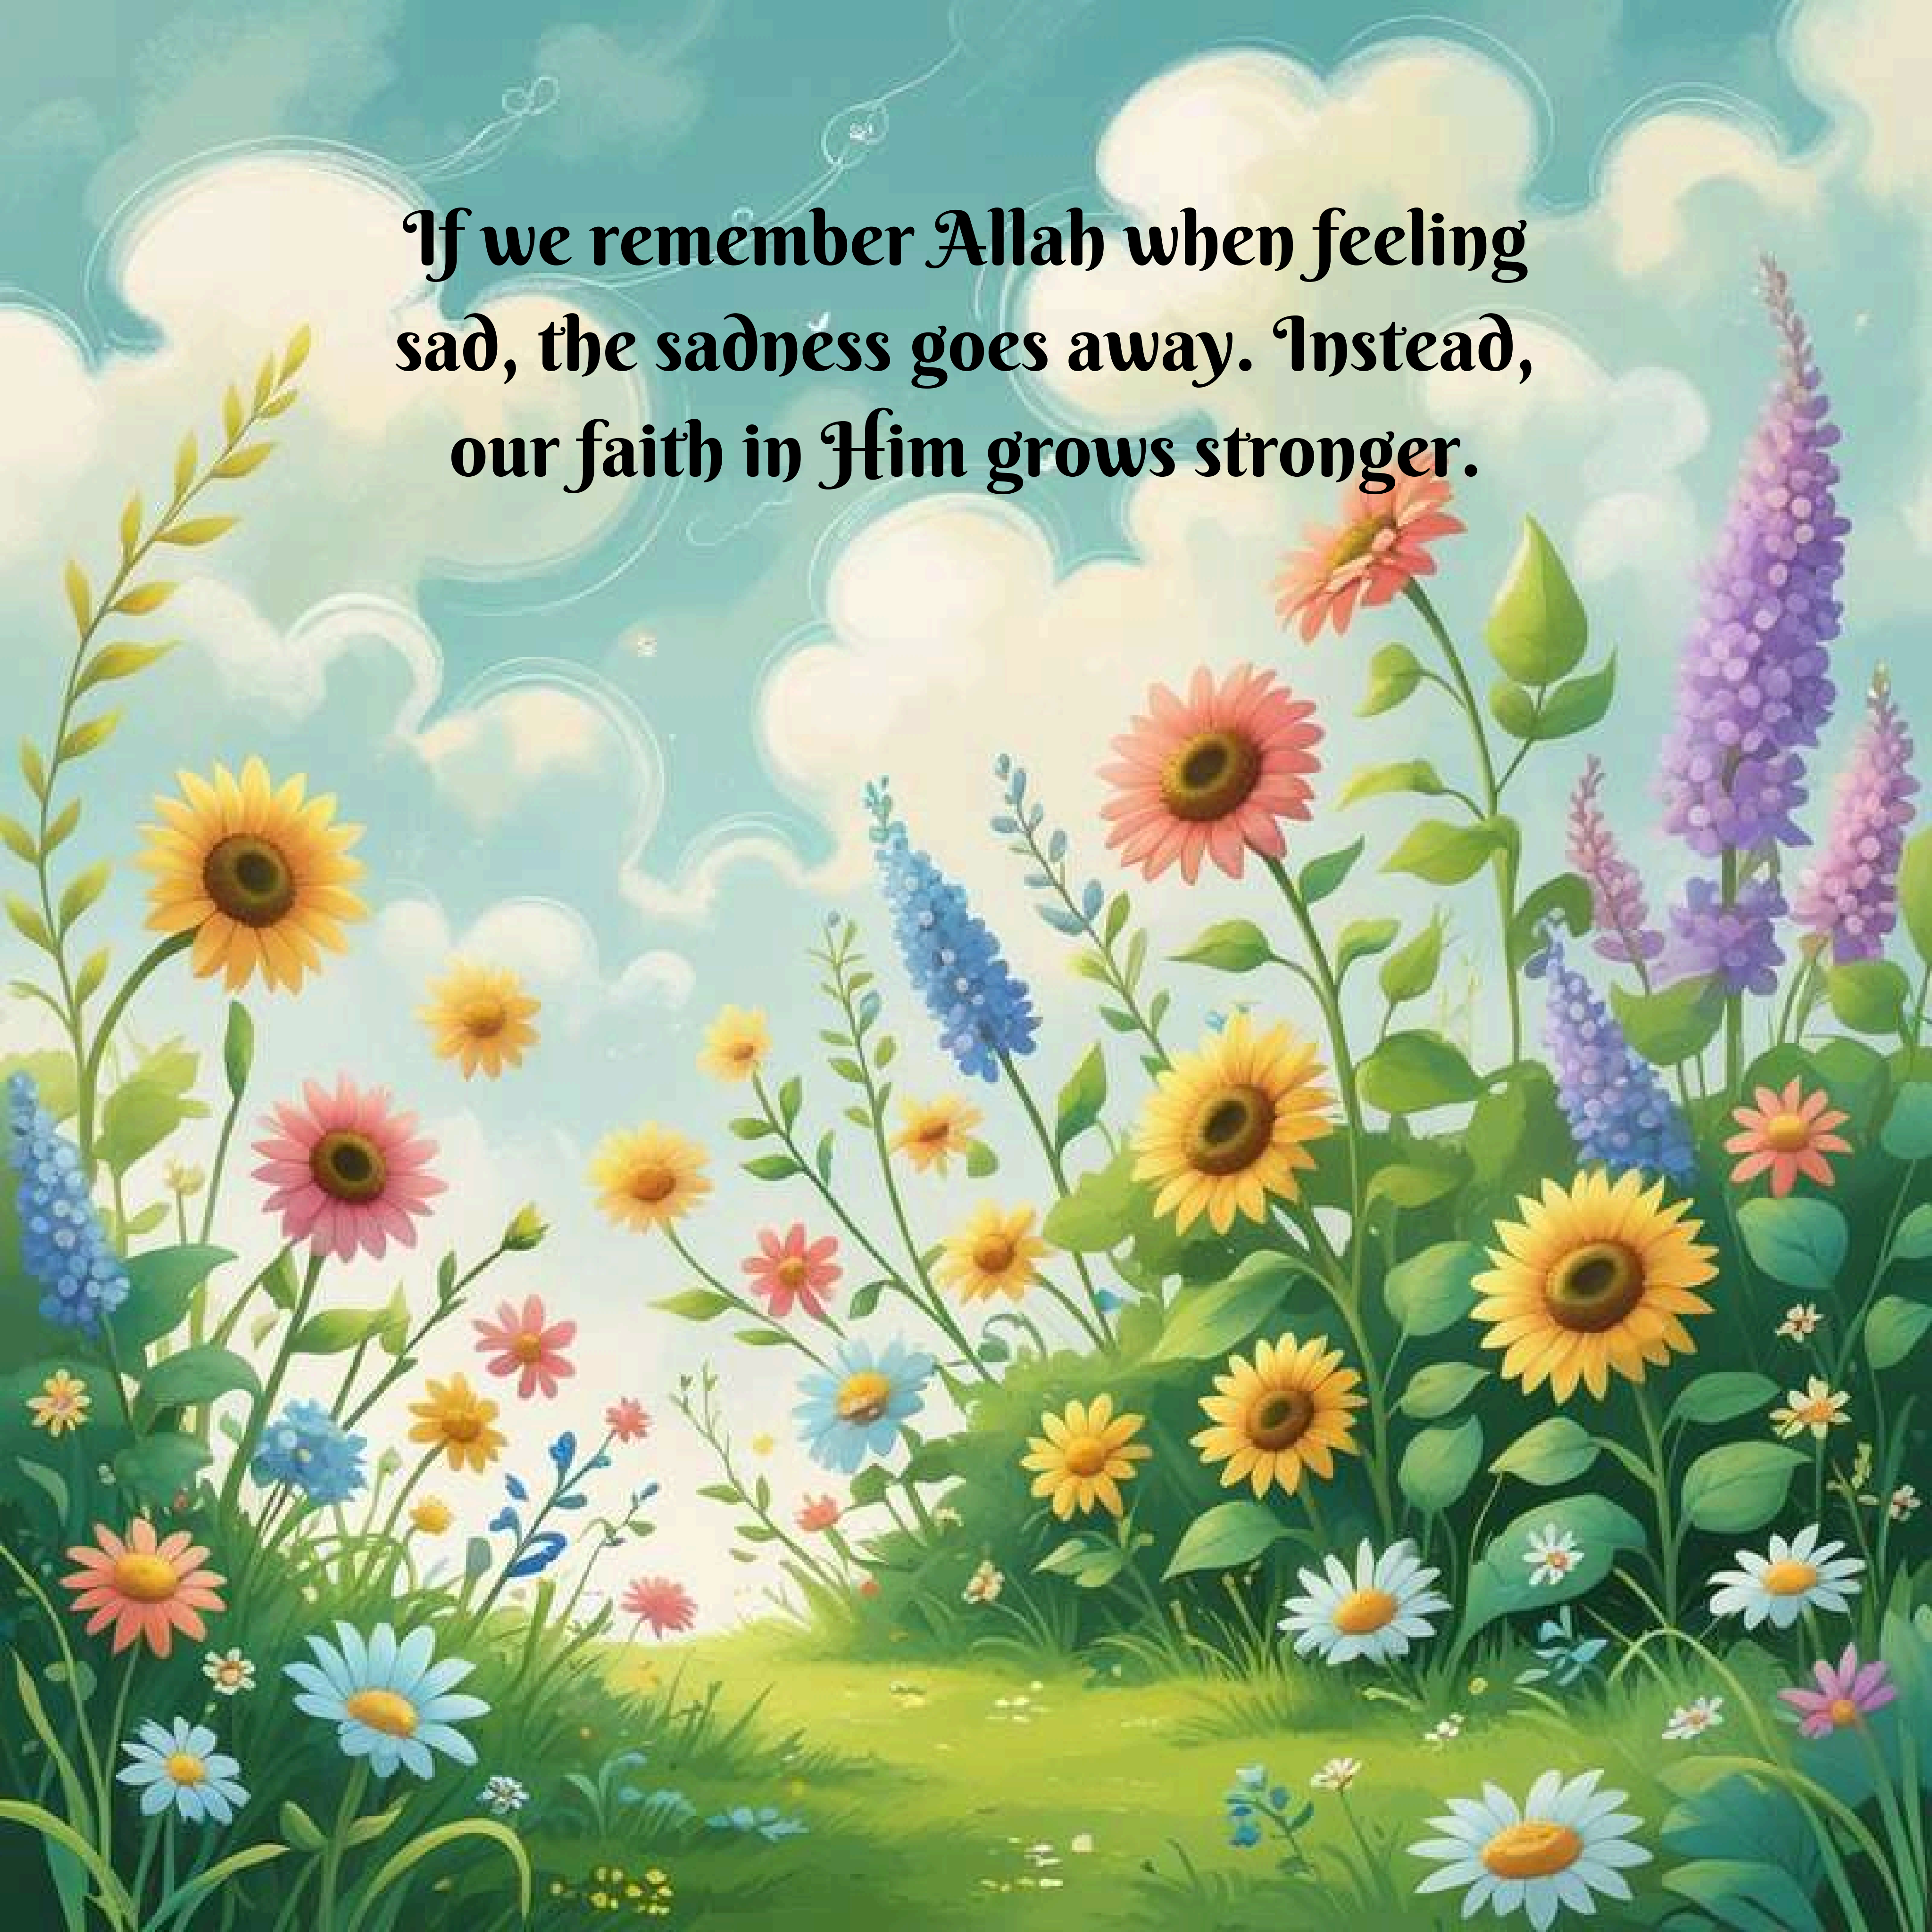

**When we do good deeds, Allah knows
what we did. As a reward, Allah will give
us blessings and good things in return.**

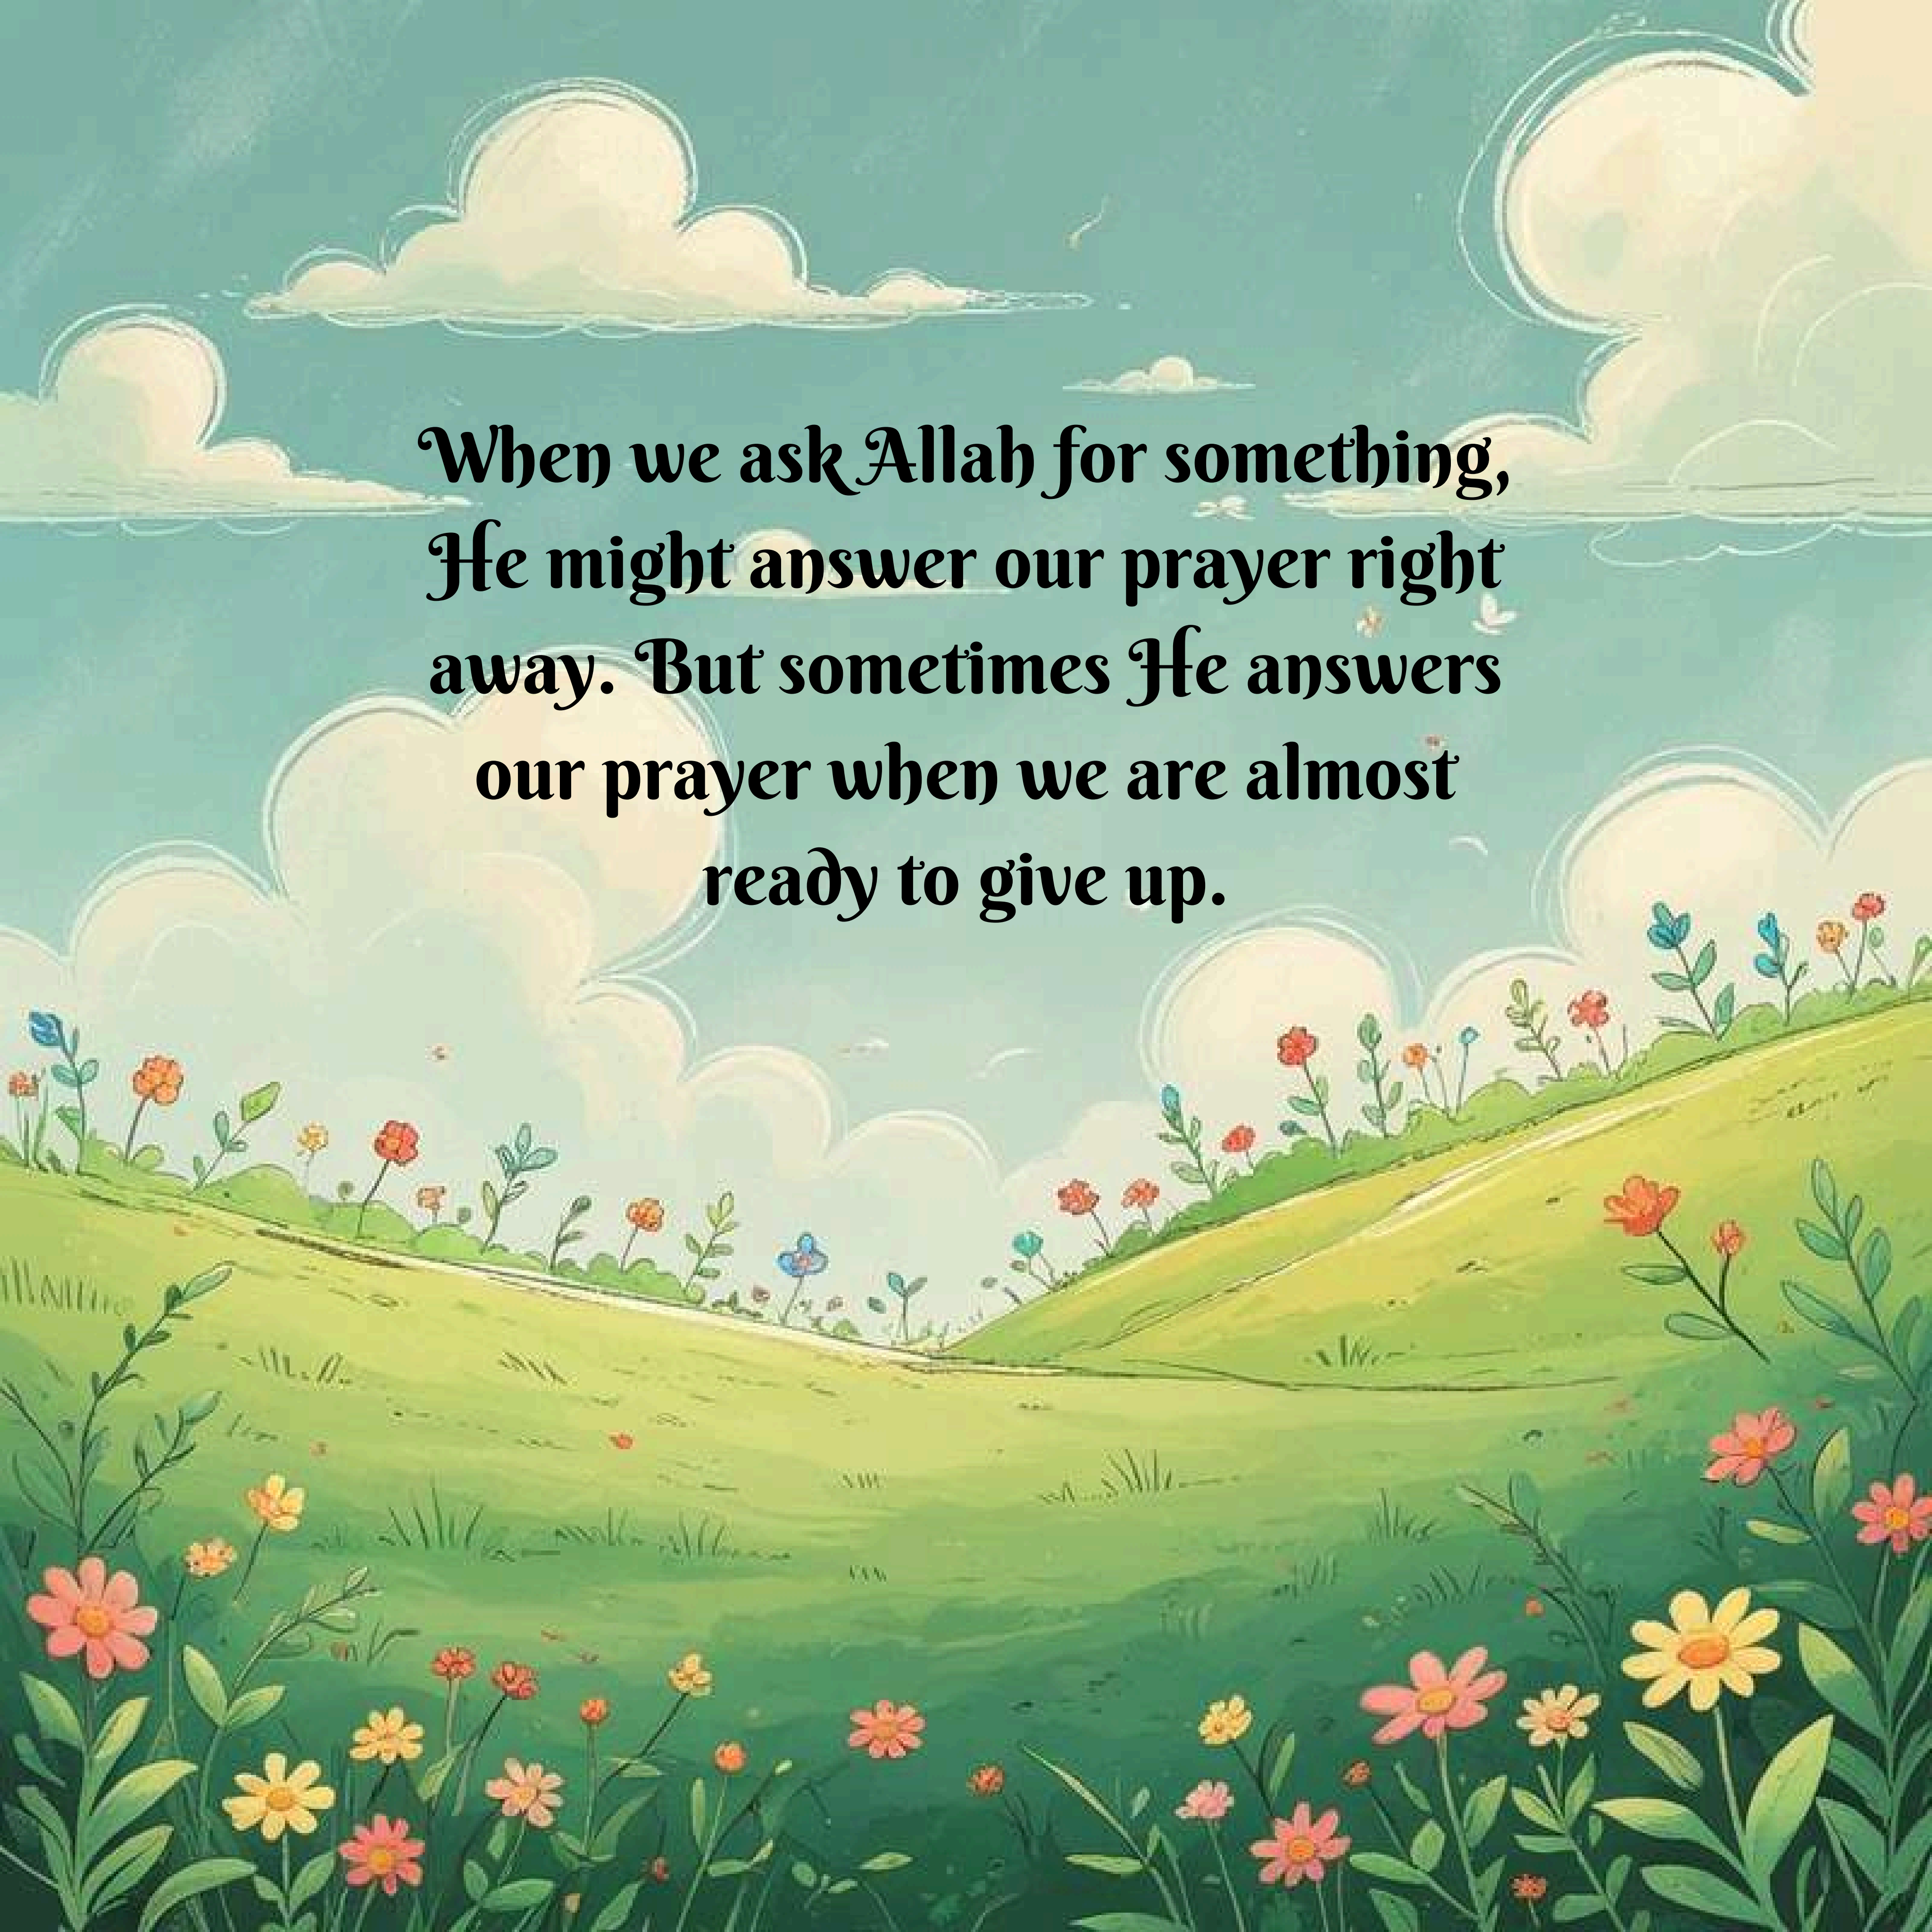

**But sometimes Allah waits to give us
our reward. He saves it and gives it to us
at the perfect time, or when we meet
Him after we die.**

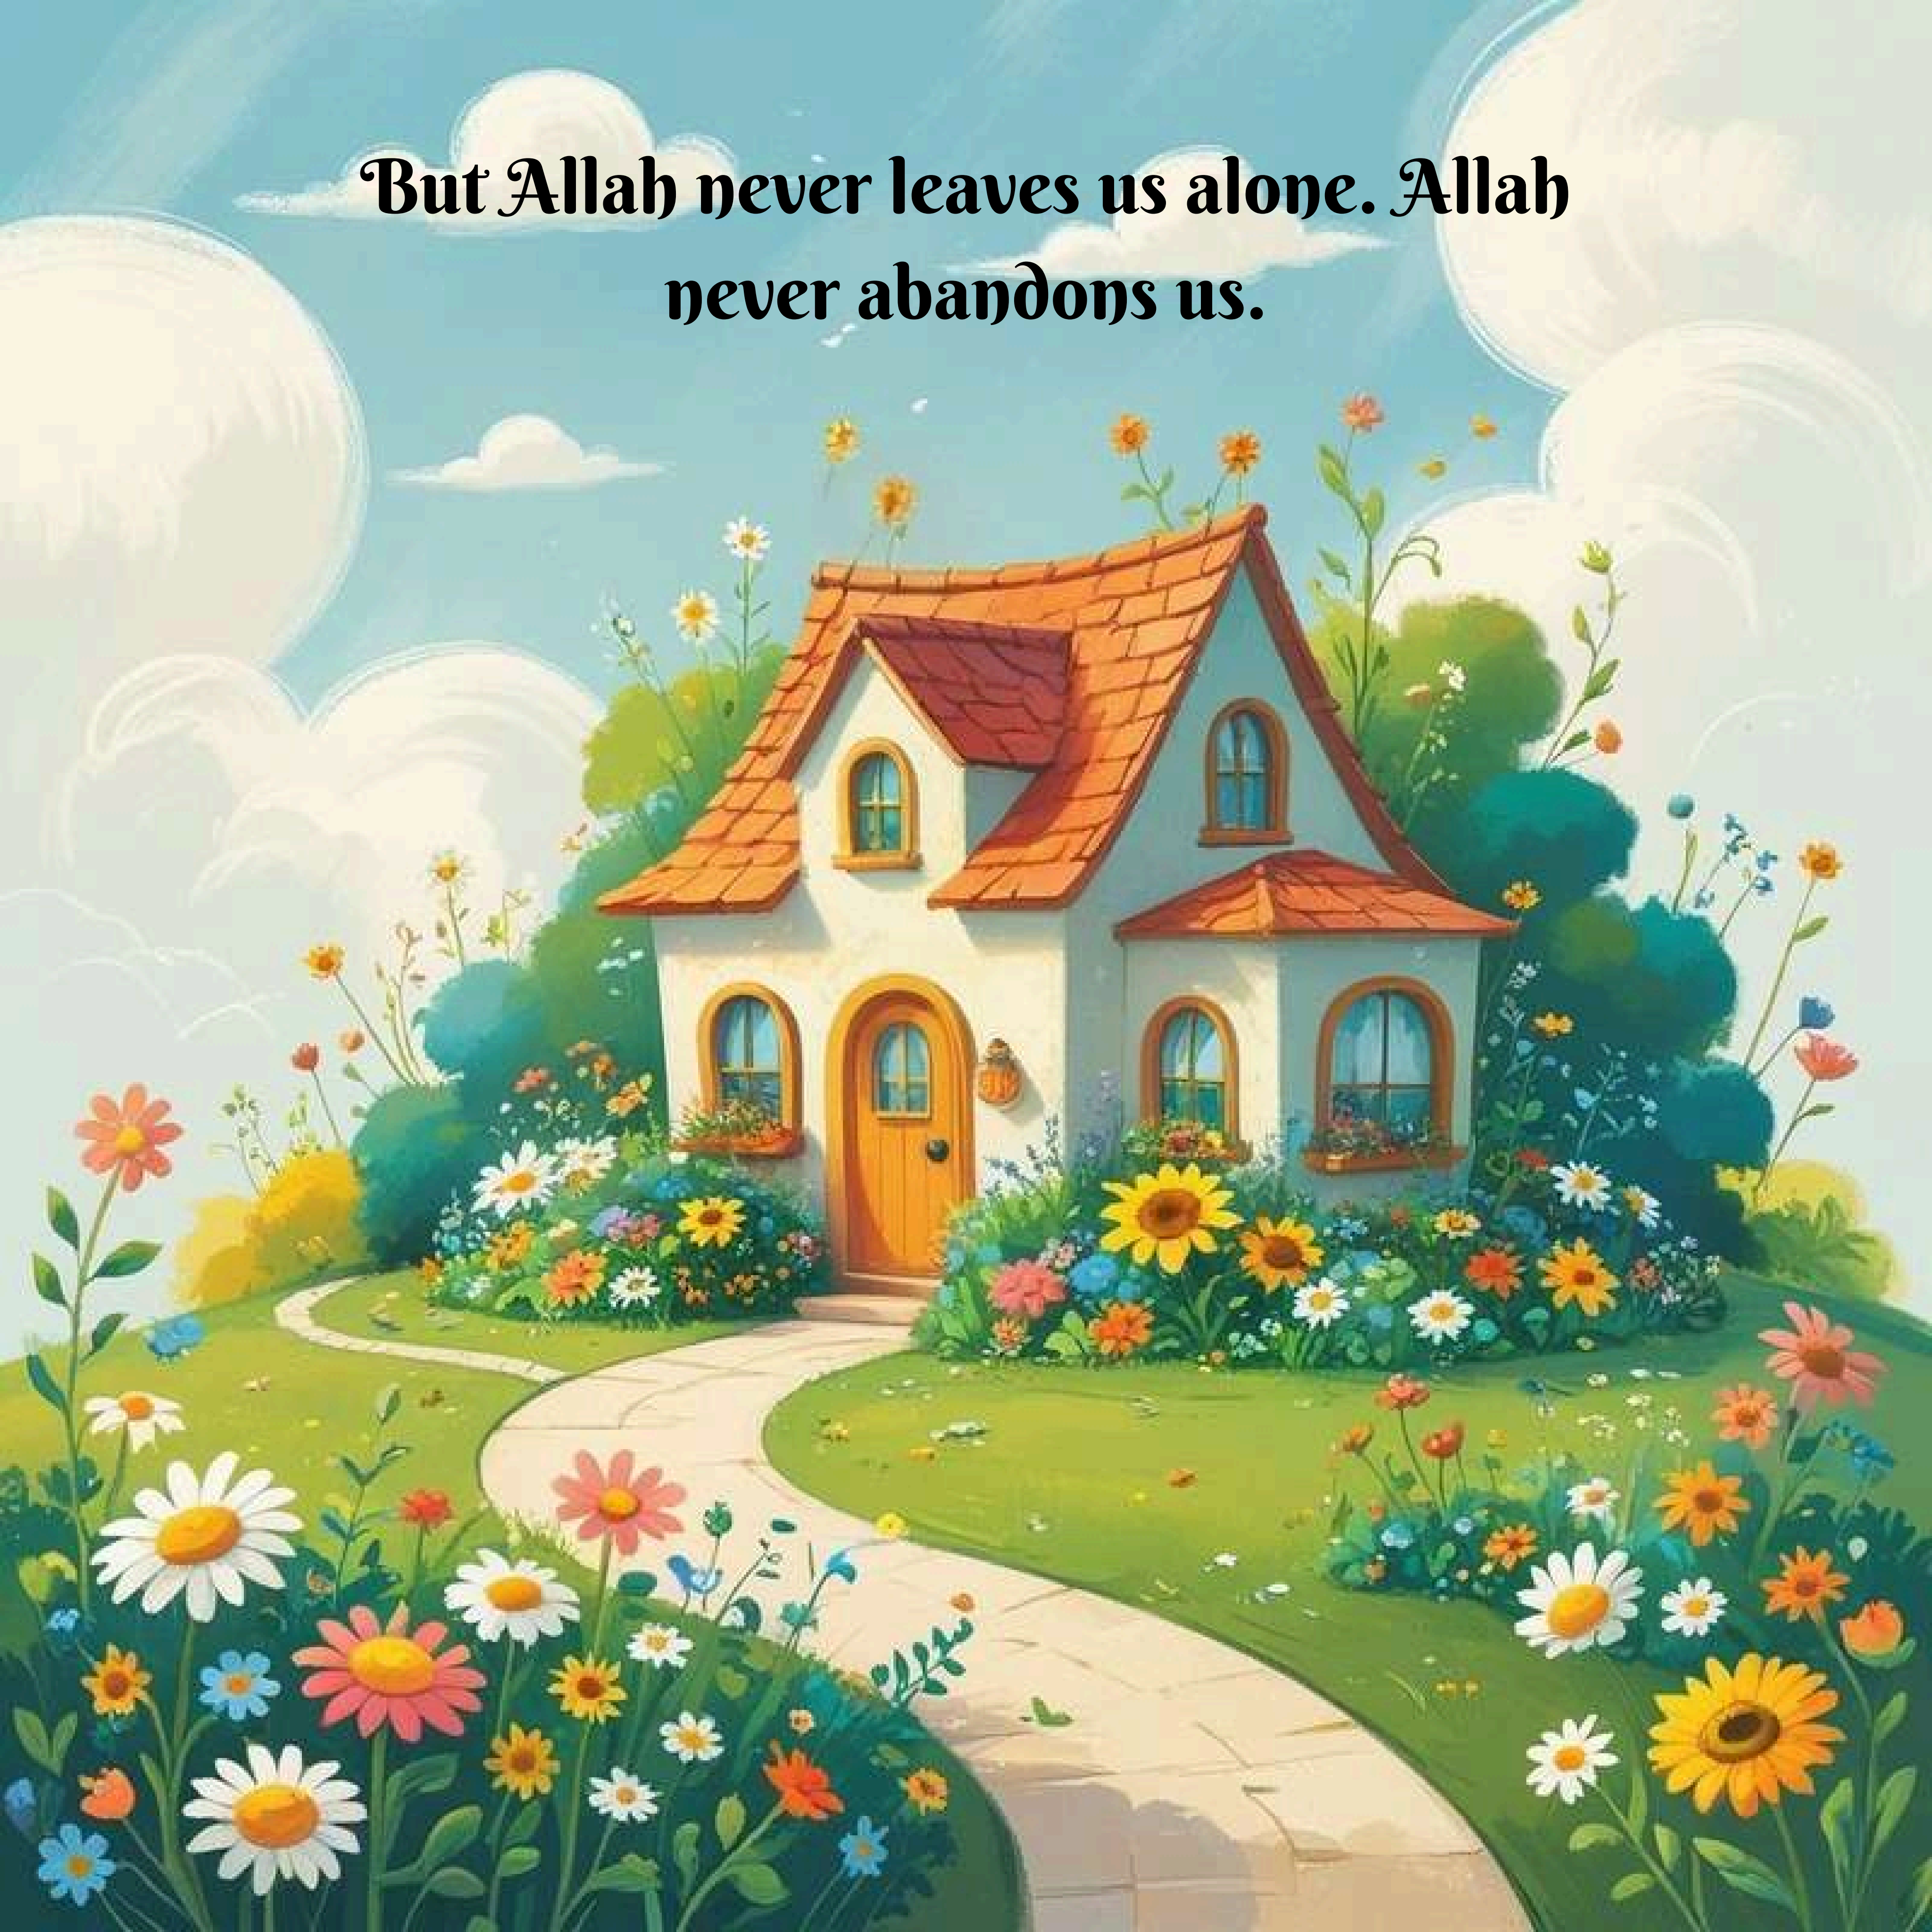

**If we remember Allah when feeling
sad, the sadness goes away. Instead,
our faith in Him grows stronger.**

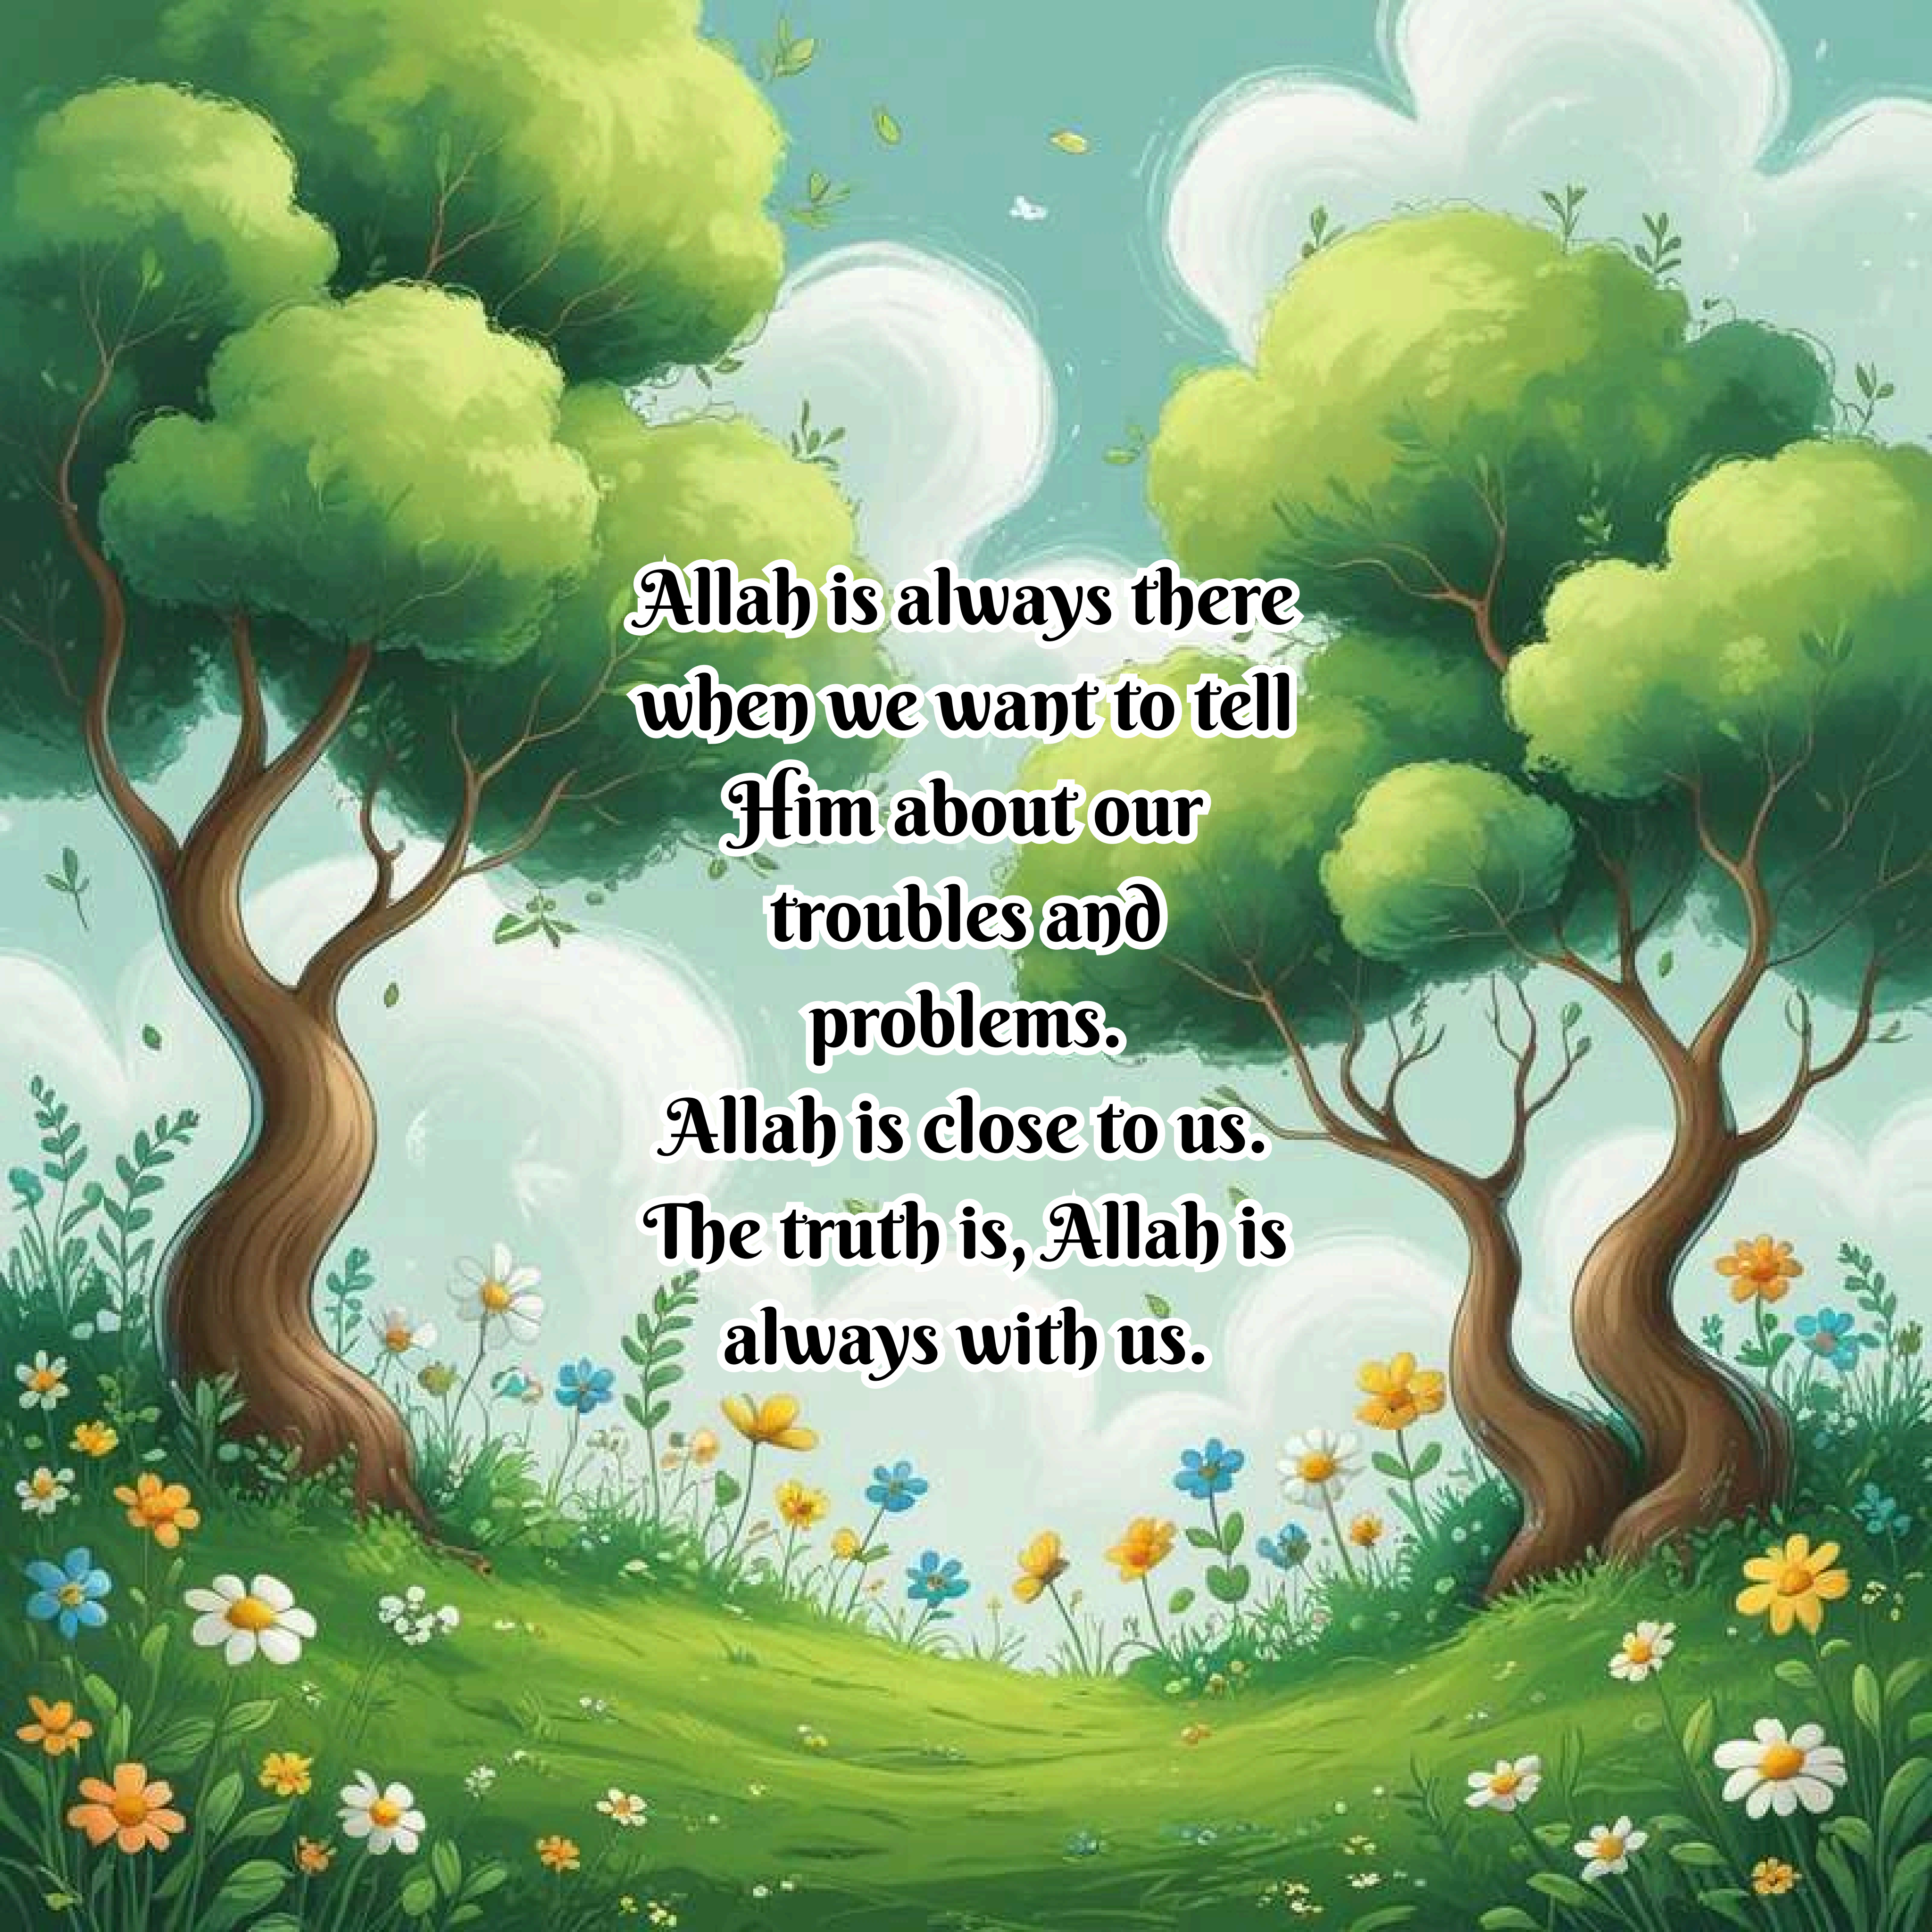

**When we ask Allah for something,
He might answer our prayer right
away. But sometimes He answers
our prayer when we are almost
ready to give up.**

**But Allah never leaves us alone. Allah
never abandons us.**

**Allah is always there
when we want to tell
Him about our
troubles and
problems.**

**Allah is close to us.
The truth is, Allah is
always with us.**
